

1. I listen to Airl daily and find it an inspiration to me, my friends, and my family.
2. If Airl were to be displaced by an LPFM broadcaster providing other programming to our area, I would no longer have a christian radio station in my area. My family, my freinds and I all love Airl and feel that a replacement to it would provide us with no other station sice we only listen to christain music and choose not to listen to secular music.
3. It is deeply in the public interest to keep Airl in our area because it touches many lives. It is inspirational programmign that minsisters many people. It has changed lives and will continue to do so.
